

EE/CprE/SE 491 Weekly Report

MAY16-22 Week 1

Date (08/31/15-9/6/15)

Advisors: Daji Qiao
Client: Halil Ceylan
Previous Project Member: Christofer Sheafe ()
Members (roles):
 Shen Fu (Team Leader)
 Matt Rose (Team Communication Leader)
 Qichen Yan (Team Webmaster)
 Darnell Melvin (Team Key Concept Holder)

Project Title: Wireless Embedded Roadway Health Monitoring

Meeting notes

Each team member introduced his name, major, and other personal information.

Advisors introduced the previous project (phase I) to the group, the new requirements in phase II and the probable change we may face next.

Scheduled the weekly meeting time for the fall semester.

Scheduled tasks for next week.

Determined the roles of each member.

Viewed the final phase I product.

Discussed the general concepts of the project.

9/4/2015 Group Meeting with Advisors

Duration: 1 Hour

Members Present: *All*

Purpose and Goals:

Meet with advisors, have an outline of the project and make a plan for the next week.

Weekly Summary

The main goal of our group this week was to designate positions for team members, set up the group alias email and schedule the weekly meeting time. Christofer Sheafe, a phase I team member, introduced the product and the technology from phase I. Each member studied information about road health systems for approximately 1 hour before meeting with our advisors. We constructed the basic website of our project at: www.isumay1622.weebly.com.

Pending issues

None

Plans for next week

Improve the basic webpage.

Each member needs to work hard to study the product in phase I and have an insight into it.

Budget

N/A

Next Meeting

9/11/2015 12:00 PM, COOVER 2042
